

Award Details

The impact of functional herbal formulations on the composition of the gut microflora and its ramifications in neurobiochemistry

Research Details

Competition Year:	2014	Fiscal Year:	2014-2015
Project Lead Name:	Westfall, Susan	Institution:	McGill University
Department:	Biomedical Engineering	Province:	Québec
Award Amount:	14,000	Installment:	
Program:	Postgraduate Scholarships - Doctoral	Selection Committee:	Schol/Fellow: Cell/Molec Biol
Research Subject:	Not available	Area of Application:	Not available
Co-Researchers:	No Co-Researcher	Partners:	No Partners

Award Summary

Biomedical Engineering, Nutritional Biochemistry, Microbiology, Neurobiology, Functional Foods, Intracellular Signaling, Gut Microflora, Gut-brain axis, Vagus nerve, Drosophila Melanogaster
