

Award Details

Modelling and Optimization of Helical Steel Piles as In-Ground Heat Exchangers for Ground-Source Heat Pumps (GSHP)

Research Details

Competition Year:	2019	Fiscal Year:	2019-2020
Project Lead Name:	Nicholson, Sarah	Institution:	Ryerson University
Department:	Mechanical and Industrial Engineering	Province:	Ontario
Award Amount:	17,500	Installment:	1 - 1
Program:	Alexander Graham Bell Canada Graduate Scholarships - Master's	Selection Committee:	Scholarships & Fellowships
Research Subject:	Mechanical engineering	Area of Application:	Not available
Co-Researchers:	No Co-Researcher	Partners:	No Partners

Award Summary
