

Award Details

BIOS2: Computational Biodiversity Science and Services

Research Details

Competition Year:	2018	Fiscal Year:	2020-2021
Project Lead Name:	Gravel, Dominique	Institution:	Université de Sherbrooke
Department:	Biologie	Province:	Québec
Award Amount:	300,000.00	Installment:	1 - 3
Program:	Collaborative Research and Training Experience	Selection Committee:	CREATE Program
Research Subject:	Evolution and ecology	Area of Application:	Environment
Co-Researchers:	Archambault, Philippe Bayne, Erin Béty, Joël Bruneau, Anne Gonzalez, Andrew Jacques, Pierre-Étienne Kembel, Steven Otto, Sarah Peres-Neto, Pedro Poisot, Timothée	Partners:	No Partners

Award Summary

big data, biodiversity, collaborative training, computational ecology, environmental assessment, global changes, modeling, monitoring, sustainable development, synthesis
